

## Wanted: Technology-oriented vegetation ecologist (f/m) with several years of professional experience

E.C.O. Institute of Ecology is a research-oriented engineering office in the field of nature conservation, protected area management and vegetation ecology. We work nationally and internationally for *nature conservation in the 21st century* ([www.e-c-o.at](http://www.e-c-o.at)). For the further development of our team in the field of *Nature – Physiographic Survey, Evaluation and Planning* we are currently looking for an experienced vegetation ecologist (f/m).

As a basic requirement you bring along:

- Completed studies at master level (ecology, botany, possibly forestry or with a botanical-vegetation science focus)
- Several years of professional and practical experience in scientific and applied (vegetation) ecological projects
- Excellent knowledge of species, good "off-road" and mapping experience (monitoring, habitat mapping, alpine pasture mapping, forest mapping)
- Very good knowledge and practical experience in the field of vegetation ecological methods (monitoring technology, remote sensing (UAVs), vegetation statistics, phytosociological evaluations, GIS analysis and modelling)
- Excellent written and spoken English and proven scientific publication activity

In addition, you are keen to formulate your own research interests and develop new fields of application for vegetation ecology work. You are highly motivated, enjoy working in a team and can inspire others for your ideas.

We offer you a permanent position, the opportunity to develop in an exceptional team, a salary according to the *Collective Agreement Engineering Offices and Consulting* (minimum salary according to Collective Agreement Application Group IV: 2,403 €) and an attractive, inspiring working environment at the Lakeside Campus Klagenfurt.

Please apply only if you meet the requirements listed above. We make long-term plans and invite you to apply even if you can only start working in the medium term. The advertisement will remain open until we have found a suitable new colleague (m/f). Please send your detailed application documents or any queries you may have to Caroline Fiedler ([fiedler@e-c-o.at](mailto:fiedler@e-c-o.at)).

Thank you for your interest in working for E.C.O.!

Mag. Dr. Michael Jungmeier

Klagenfurt, 4.2.2020
