

## M. C. A. Management of Conservation Areas

Next round: October 2019

### M.C.A.: Get to know the first board members!

**The Scientific Advisory Board advises the programme organisation on development planning and should ensure an external perspective and international networking.**

This Advisory Board consists of independent, internationally renowned scientists, who are distinguished in particular by their experience in the area of strategic development of interdisciplinary fields of research as well as protected area management.

Michael Jungmeier, Programme Director, is very pleased to welcome ao.Univ-Prof. Mag. Dr. Franz Rauch as Chairman of the Scientific Advisory Board and emphasises, "As the Institute Director of the IUS Institute for Teaching and School Development at the Alpen-Adria University Klagenfurt and through his many years of experience and expertise in his field, Franz Rauch can continue to support the Master of Science programme 'Management of Conservation Areas' as an innovation leader with additional approaches and insights. "

Signing up for the MCA programme provides excellent training opportunities for your staff. Take advantage of the opportunity for an early bird registration before Christmas ([register here!](#)).

We are looking forward to hearing from you!

## European Parks Academy E. P. A.

Next round: July 2019

### E.P.A. 2019: Enable your employee to be the in-house expert!

**The European Parks Academy is a summerschool with an added value for your staff and your institution.**

This summer school is an opportunity for your employees and at the same time a chance for your institution. By taking part in the European Parks Academy, you gain the expertise in your house and can confidently save the money for a consultant. The added value is that the participating employee can share the experienced knowledge within your institution.

If you sign up, you can bring a showcase from your work to this exclusive training. At a 4-day seminar you will work in small groups, discuss with renowned experts to find innovative solutions for your individual challenges. Bringing new perspectives into your organisation is your main take-home message.

We are looking forward to your registration and your individual topics to discuss.
